

# Paragraph

*Marico Moredo*

I am a topic  
A sentence  
Comprised of thought  
The earth's axis  
Halting to a stop  
Thoughtless regiments  
Of grain and soap

My body  
Adorned with  
Meat and marrow  
Sentences no less than five lines  
A skeletal structure

I am a chain  
Link to the stream  
Of organized information  
Commas, colons, semi-colons  
Each punctuation  
To border the boundless sea

I am one  
A puzzle piece  
Jammed between  
The sidewalk  
The vast expanse  
Of drying tar  
Asphalt between  
Each city

I am a cable  
Between each  
Telephone pole

And a period  
The four-way stop sign  
To yield to another
